TASC TO1 R7 WLL General Fact Sheet\_020314.pdf

Hi Dan and Ben,

Attached is a fact sheet that is a deliverable for the current TASC work plan for the West Lake Landfill CAG. The purpose of the fact sheet is to summarize the Superfund process, history and status of the site. We also included basic information about radioactivity to help clear up some of the confusion for community members. Please review and let me know if you have any comments or concerns. I am planning to take this fact sheet to a CAG technical committee meeting on February 13.

Thank you.

Terrie
